Omega F Air Pillows

Production of air pillows on roll at high speed

The Omega F has been developed for ultra-high-capacity production of air pillows. It allows significant reduction of production costs compared with conventional technologies for air pillow production.

- Continuous motion sealing/perforation
- Production speed up to 492 ft/min (150 m/min)
- Up to 4-lane production
- Excellent price/performance ratio

Capacity Examples

Product	Pillows/min/lane	Lanes	Total pillows/min
4" pillow	1500	4	6000
5" pillow	1200	4	4800
6" pillow	1000	4	4000

Omega F Air Pillows

At Roll-o-Matic we always focus on your production demands - therefore all Roll-o-Matic developments are customer-driven and customer-oriented.

The OMEGA-series has been developed according to our customers' requirements for user friendly and easy to operate high capacity line where the key parameters are: stability, dedicated production and outstanding performance.
