

Roll-o-View

Smarter production through data

The production intelligence platform
for Roll-o-Matic production lines.

- Production monitoring
- OEE & analytics
- Diagnostics & support

Real-time visibility. Faster troubleshooting.
Better control.

Technical capabilities built around your production

Roll-o-View is a modular platform that gives production teams real-time visibility into machine performance, diagnostics and operational data.

Start with the capabilities you need today and expand the platform as your production evolves.

	Capability	Description	Included	Optional
Monitor See what's happening in real time	Live production monitoring	View live machine status, production data and key performance indicators across your production	✓	
	Mobile production overview	Access production information from your smartphone or tablet wherever you are	✓	
	OEE monitoring	Measure availability, performance and quality to identify production losses	✓	
	Multi-machine overview	Monitor multiple machines from one interface	✓	
Analyze Understand trends and identify improvement opportunities	Production history	Review production events and machine history to identify recurring issues	✓	
	Production reporting	Generate reports for production, performance and continuous improvement		✓
	Energy analysis	Monitor and analyze energy consumption over time		✓
Optimize Reduce downtime and improve production performance	Alarm management	Receive alarms and identify issues before they affect production	✓	
	Condition monitoring	Monitor machine condition to support preventive maintenance	✓	
	Maintenance management	Record maintenance activities and service history	✓	
Support Keep production running with documentation and remote assistance	Technical documentation	Access manuals, machine documentation and technical information online	✓	
	Training resources	Access video tutorials and operating guidance	✓	
	Online support	Contact Roll-o-Matic support and create service requests directly from the platform		✓
	Service request management	Track service requests and their status		✓
	User administration	Manage secure user access and permissions	✓	

Built for smarter production.
